

Revolution XT

Perfect balance between design and performance

Open, Close, Live

A clean and minimal
piece of design,
built to last.

Revolution XT is the perfect fusion of design and performance.

The dedicated forend covers give this system a consistently clean and minimal design, hiding the components of lock and striker, which grant reliability and functionality which have always made the AGB hardware stand out.

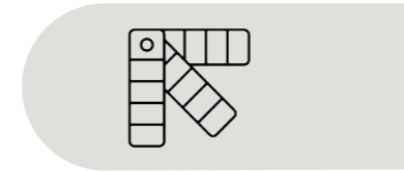

Revolution XT, enamelled bright brass plated finish on brushed walnut door, for a classic and timeless design.

The advantages of Revolution XT

Aesthetics without compromise

The removable mechanical snap-fit covers conceal all fixing screws, ensuring a clean, minimalist design.

Wide range of finishes

Create any colour combination with our range of available finishes.

Magnetic closure

The magnetic latch ensures precise and silent operation of the system.

Quality and Durability

The *Made in Italy* design and manufacturing guarantee excellent performance in every component of the system.

With Revolution XT, colour becomes a design element.

Multiple finishes and neutral, paintable covers allow perfect colour matches between the sash, handle, lock, and striker.

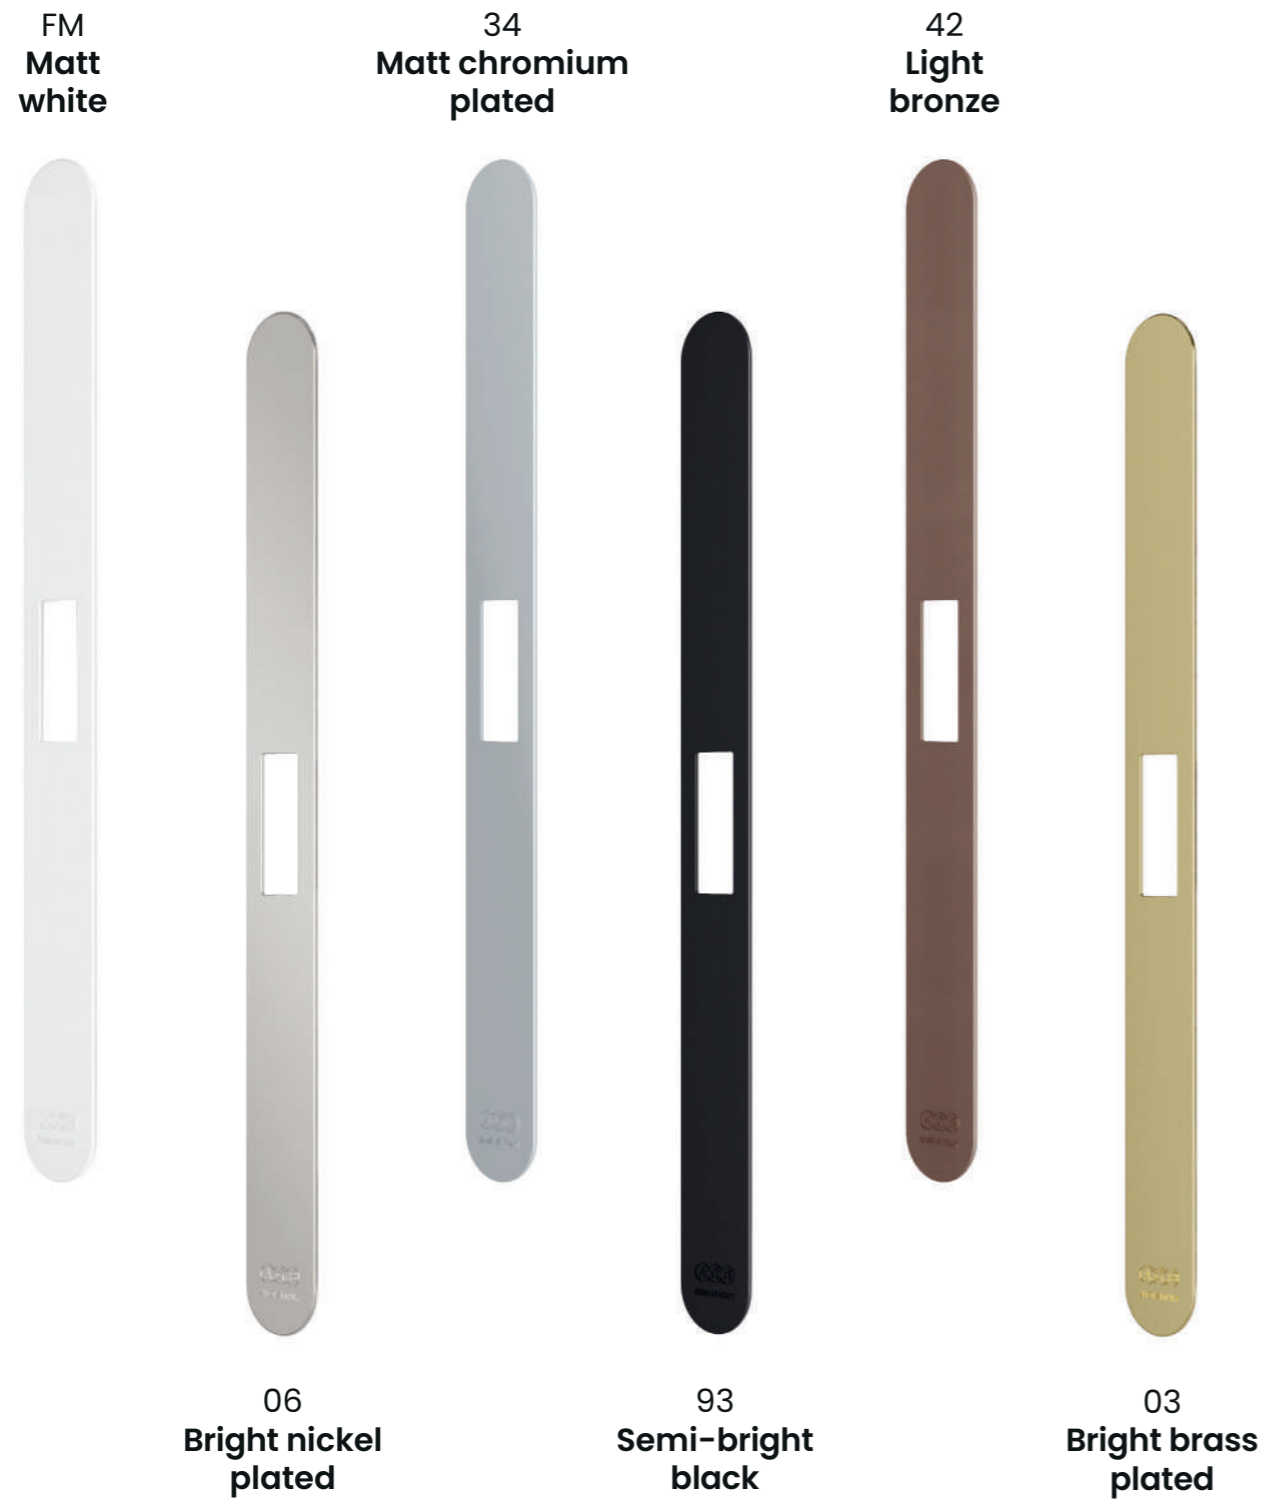

Play with contrasting or coordinated combinations, even total black, for a look that gives full freedom to colour creativity.

Revolution XT with Easy-Fix Revolution striker

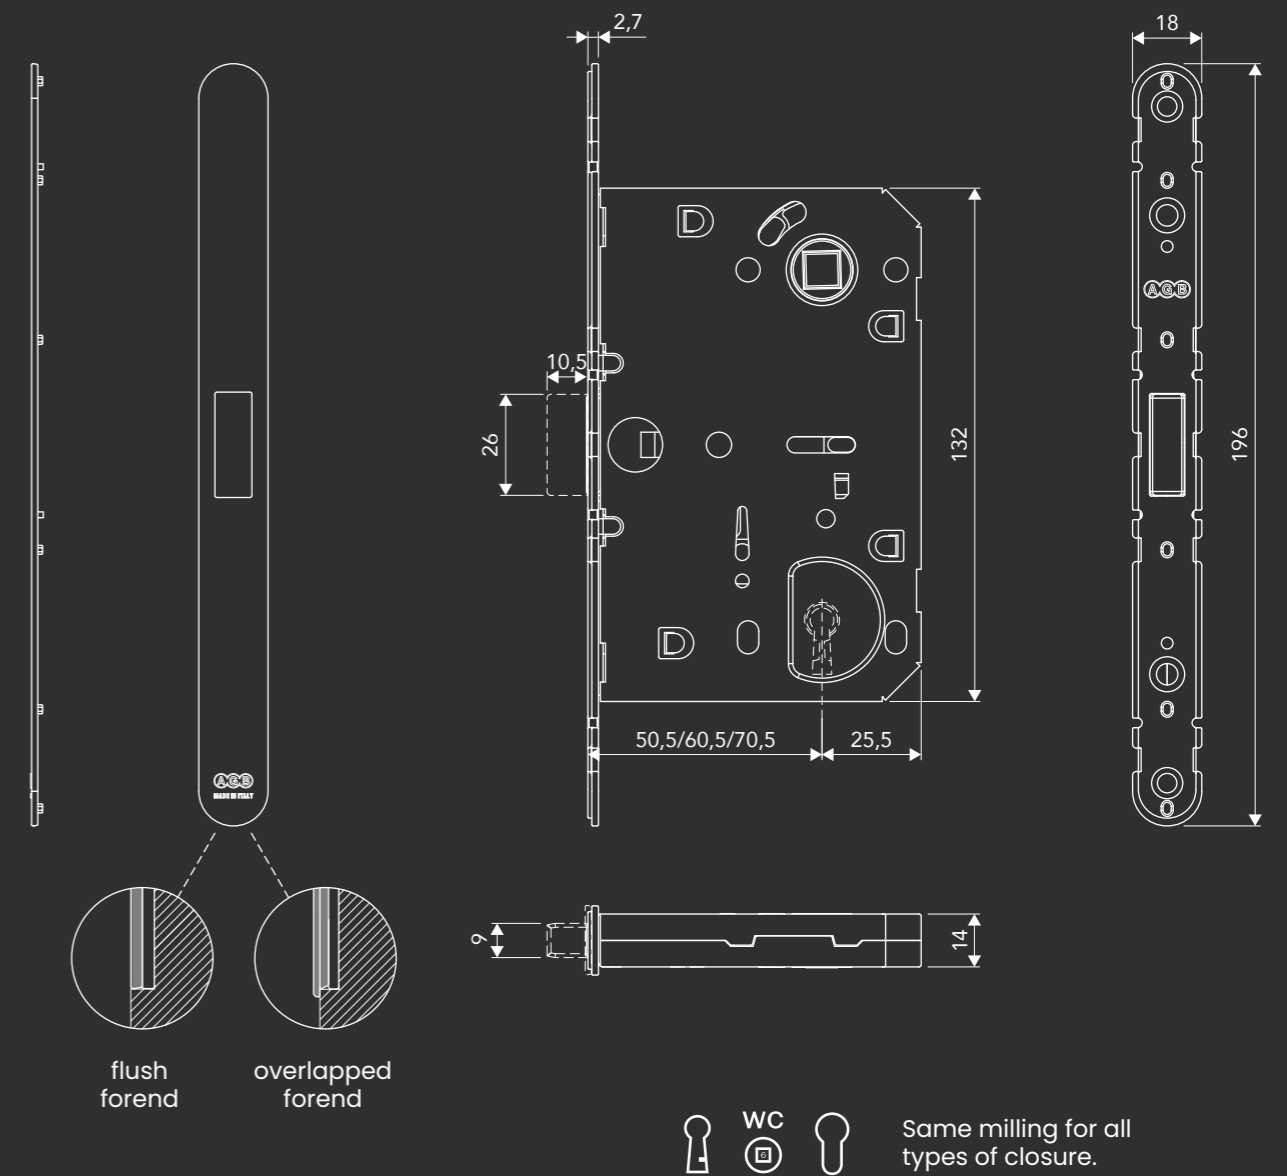

Revolution XT semi-bright black finish on brushed oak door, for a modern and cosy design.

Available finishes

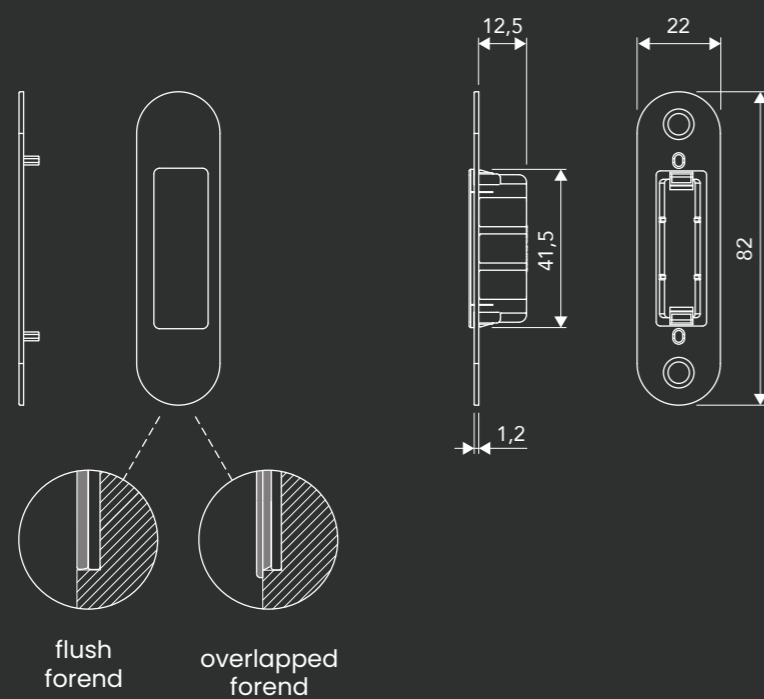

Neutral ABS covers are also available for custom finishes.
