NOVA2 CARE

The supporting armrest provides assistance to those with limited strength and mobility. It increases the safety in all areas of the bathroom – such as by the wash basin, the toilet or in the shower. It provides support for standing or help in getting up. Additionally, you can buy an upgrade kit for a toilet roll holder.

This seat impresses with its solid appearance, its simplicity

and elegance. The need for a seat is found in many areas. For example, by the stairs, in the shower or in the entrance areas. With the NOVA2 folding seat, you have a stable and secure seating possibility. It is made of solid stainless steel and is available in a variety of finishes such as polished, brushed, copper, gold, black and white. The seat is made of black powder coated aluminium.
